Prof. Langley has discovered that time and tide wait for no buzzard of the artificial brand.

The physical ailments of Mr. Schwab justify the conclusion that he was not in the steel trust for his health.

Didn't the national government promise to convert the grounds adjoining the Marine Hospital into a beautiful park?

Concerning those free passes, isn't it strange that Ben. Tillman should admit that any individual or corporation could "force" him to do anything?

Mr. Schwab got along finely in the steel trust; but when he begins to sell tailor-made clothes he will have to be very careful of the trust plan.

Jeffries got $32,728 for squelching Corbett. There are several "boys" right here on "Dry Pond" who would have done the trick for half the money.

Skunks have caused the residents in the vicinity of the center considerable trouble—*Rome (Ohio) Sentinel*. Why not spell it scenter, Mr. Scentinel.

Sir Thomas Lipton says he will cheer even if the Shamrock is beaten, which means that he will take a cup of tea, of the Lipton brand, "that cheers but not inebriates."

The Baltimore *Sun*, referring to aerial navigation, says: "Yet repeated failure ought not to discourage investigation." And it never will so long as the "other fellow" supplies the necessary funds.

It seems that Professor Jeffries did up Professor Corbett so completely that the latter is left without an excuse.—*Durham Herald*. But Professor Corbett "sorrows not as those who have no hope." Think of the fun he will have "blowing in" that $11,000.

The esteemed *Commoner* in its very latest issue nominates Senator Cockrell of Missouri for President. But what is the sense in trying a cockerell when we might have the rooster himself?—Charlotte *News*. Of course, you mean David Bennett Hill, the rooster of "Wolfert's Roost?"

LOCAL DOTS.

— Fayetteville *Observer*: "Misses Etta and Lelia Hart are having a residence erected on Cool Spring street adjoining Mr. W. A. Vanstory's."

— The steamer "City of Fayetteville" arrived yesterday morning with over 100 passengers, nearly all of whom came down to spend the day on the beach.

— A boy 15 to 18 years old who knows how to run a Job Press may secure employment by calling at the STAR office. Must be a resident of Wilmington.

— City subscribers who fail to receive their papers should, in every instance, report the failure promptly, either at the STAR office or to Mr. W. McD. Evans.

— Knight's excursion train to Columbia yesterday morning consisted of nine coaches and carried about 300 people from Wilmington to the South Carolina capital.

— By deed filed for record yesterday the Mechanics Home Association transferred to W. A. McGowan for $336.12, the Cutlar property on west side of Fourth, between Church and Castle streets, 33x110 feet in size.

— A basket picnic will be given at E. M. Johnston's grove, near Willard, Pender county, Thursday, Aug. 27th. Everybody is invited to "come and bring well filled baskets." A great time is in store for all who attend.

— An excursion train of six cars, managed by J. A. Long, arrived at 6:45 P. M. yesterday over the Seaboard Air Line from Hickory, Lenoir and other points. Partrick Bros., of Clinton, and Fussell Bros., of Faison, will bring two excursions over the Coast Line to-day.

— The contract for supplying the government boats here with Pocahontas coal has been awarded to W. E. Worth & Co. Three bids were received, as follows: W. E. Worth & Co., $4.29 per ton; J. A. Springer & Co., $4.60; Coal, Cement & Supply Co., $5.70. About 150 tons will be used.

— Thos. H. Knight, the colored manager, is advertising an excursion to Fayetteville on Labor Day, Monday, Sept. 7th, the fare for the round trip being only $1. Separate cars will be provided for white and colored people. The train leaves at 8 A. M. and returning leaves Fayetteville at 11 P. M.

CREW OF THE NANTUCKET.

Movement on Foot for Reunion of Jolly North Carolina Tars.

A movement is on foot for a reunion of the officers and crew of the U. S. S. "Nantucket," upon which upwards of a hundred of the North Carolina Naval Brigade saw service during the late war with Spain. Plans for the event have not yet been formulated, but it may be safely said that if the reunion is held, it will be at or near Wilmington and will be a jolly affair. Nearly half of the "Nantucket's" crew were Wilmingtonians and it is now a little more than five years since the monitor sailed. The reunion idea is a good one if sufficient enthusiasm in the event can be aroused.

Money on The Races.

A number of persons in the city are reported to have lost recently sums varying from $50 to $400 as the result of investments with the Co-operative Turf Association, of Chicago and New Orleans. The business from Wilmington was done through the New Orleans office and the methods were unique. Each patron entrusted to the Association a certain amount of money to be invested, presumably on the races, as the Association in its judgment deemed best. Dividends came regularly for a while and the Wilmington patrons were well pleased. Other came in and the company was doing a land office business until the judgment of the Association failed to pick the winners as regularly as before.

Colored Excursionist Injured.

John Mitchell, a colored carpenter of this city, who started on the Columbia, S. C., excursion, fell or was knocked from the train yesterday morning near Chadbourn and received very severe injuries about the head and body. He was brought back to the city on the regular train, arriving at 1:45 P. M. and was sent to his home near Seventh and Nun streets.

Very Heavy Rainfall.

For the week ended Monday Wilmington and the Wilmington section had a rainfall of 5.10 inches. If the record of Tuesday, Wednesday and this morning is repeated the rainfall for the present week may go even beyond five inches, which was the heaviest in the State last week.

Looking After Deserter.

Fayetteville *Observer*, 19th: "Lieut. William Fitzhugh Jones, U. S. A., stationed at Fort Caswell off Wilmington, is in the city collecting evidence in regard to the deserter John Gregor, Jr., who was recently arrested in this city by Deputy Sheriff Monaghan. Lieut. Jones returned to his post this afternoon, but will probably be back next week to establish a recruiting station."

THE REGISTERS HERE.

Father and Son, Convicted of Murder, on Their Way to State Penitentiary.

THERE FOR SAFE KEEPING.

Jail at Whiteville Regarded as Insecure. Case on Appeal to Supreme Court for Defendants Made Up and Forwarded Yesterday.

H. B. Register, familiarly known as "Buck" Register, and his son, Jabel, who were convicted, at the special term of Columbus Superior Court last week, of the double murder of Jesse Soles, white, and Jim Staley, colored, were brought to the city yesterday by Deputy Sheriff W. H. Thompson and Jailor W. J. Benton, of Whiteville, and were taken on the 7 o'clock train last night to Raleigh, where they will be confined in the State prison pending the hearing of their appeal to the Supreme Court, Oct. 11th.

The public is familiar with the crime and conviction of the two men. The elder, who is 64 years of age, was sentenced by Judge Fred Moore to life imprisonment and Jabel was sentenced to be hanged on Friday, Oct. 9th. The jail at Whiteville is regarded as insecure for desperate criminals and the final order for the removal of the prisoners was received from the Governor and Solicitor Tuesday.

The prisoners arrived on the 1:45 P. M. train yesterday and as they were escorted through the streets handcuffed together and accompanied by the officers, they attracted much attention. The elder Register carried in his hand, closely rolled, the current number of a magazine and neither of the men displayed any sign of emotion or nervousness. The elder is gray with age and slightly stooped, but walked steadily and had few words to say—absolutely nothing as to the terrible crime of which he and his son stand convicted. Returning to the station yesterday evening the younger Register carried the magazine in the hand around the wrist of which he was bound, evidently in an effort to conceal the fact as far as possible that he and his father were chained.

Before being locked in a cell in the New Hanover jail, to which they were taken immediately upon their arrival here, the prisoners had a brief conversation with Donald McRackan, Esq., of Whiteville, who has been here the past two days assisting Hon. John D. Bellamy in a preparation of the case of the Registers on appeal. The papers will be sent to the attorneys for the prosecution for agreement, and later to Judge Moore at Asheville, who will forward them to the Supreme Court. As before stated, the case will be heard upon motion for a new trial on October 11th. As October 9th has been appointed as the day of execution for Jabel, it will now fall to the Governor to appoint another date upon which he will hang, unless the Supreme grants a new trial, of which counsel for the defendants are very hopeful.

OPENING OF THEATRE SEASON.

"Telephone Girl," Bright Musical Comedy, Here Monday Night Week.

To-day the flaring theatrical posters will again greet the eye, as Mr. Charles Riggs, business manager of "The Telephone Girl," arrived in the city last night to advertise his company, which will be the opening attraction at the Academy of Music Monday night, 31st instant.

The production of "The Telephone Girl" this season is new in every detail—new faces in the cast, new girls in the chorus, new costumes on the girls and new comedy situations. Max Bloom will be seen as the irresistably funny, Hans Nix, inspector of telephones. His partner in the laughter making will be Nellie V. Nichols, a charming soubrette, a graceful dancer and a talented singer. Variety will be introduced in the efforts of Harry C. Lyons, a mimic who can simulate any sound from a dog fight to a phonograph; May F. Linden, a recruit from the ranks of the Bostonian Opera Co., who has a magnificent soprano voice, and the Misses Kendall and Thompson whose trade mark, "The Female Sousas," is a guarantee of their musical ability.

Emmet Levy an Author.

Before leaving the city a few days ago, Mr. Emmet E. Levy, the commercial tourist and proprietor of the vast aggregation of dogs and ponies now touring the continent, confided to a number of close friends that he is engaged in the writing of a book. Two hundred pages of manuscript are now ready for the printers. The title of the volume will be "Life in a Valise" and the book will be from the presses Oct. 1st or later—certainly not before that time.

Governor's Reward for Dewey.

A special to the STAR from Raleigh last night says: "Governor Aycock to-day, at the request of the Craven County Commissioners, offered $400 reward for T. W. Dewey, absconding cashier of the Farmers & Merchants' Bank, of Newbern. This makes $4,400 reward outstanding; $4,000 being by the bank directors.

Management of Mr. Collier.

Raleigh *News and Observer*: "Mr. Henry Blount, of Wilson, the gifted orator and elocutionist, was here yesterday on his way to Rocky Mount, where he will spend some days and will be heard in some of his famous lectures. Next week he has an engagement to fill at Lillington. He has been asked to lecture in Northern fields under the management of J. K. Collier, of New York."

ROBBED S. A. L. FREIGHT CARS

William Brown, Wilmington Colored Youth, Brought Here by Railroad Detective. Played a Systematic Game.

William Brown, colored, aged about 18 years and known to the police as "sky-gazer," because of a deformity of his eyes, was brought to the city yesterday by Railroad Detectives G. S. Fitzwater, of Hamlet, and R. A. Daugherty, of Jacksonville, Fla. Brown is charged with systematically robbing freight cars of the Seaboard Air Line between Wilmington and Council's Station and was caught by conductor T. B. Henry, of the S. A. L., in the act of stowing away a lot of clothing and an assortment of notions and dry goods from a car into which he had broken while in transit, Monday night, near Phoenix. The young negro was tied and carried on to Hamlet where he was turned over to the detectives. Yesterday Detectives Daugherty and Fitzwater brought the prisoner to Wilmington and turned him over to Constable W. B. Savage. Upon a warrant secured from Justice Bornemann the lad was committed to jail for preliminary hearing to-morrow afternoon at 2 o'clock.

While detectives are not given to talking of developments in their cases, it is gathered from an interview with Mr. Daugherty yesterday afternoon that the young negro has one or more confederates in his robbery of the cars and has made several good hauls of freight from time to time recently. Very few, if any, of the goods have been recovered save those taken from the person of the negro by Conductor Henry Monday night.

"Sky-gazer," as the boy is familiarly known in police circles in Wilmington, has rather a bad record and has been employed from time to time by several down-town shop keepers with the result that he was usually discharged for some petty thievery.

Retail Grocers' Association.

The Retail Grocers' Association held its monthly meeting Tuesday at 9 o'clock in the Seaboard Air Line building, Mr. J. H. Thomas, the president, presided; Messrs. J. F. Sellars, treasurer, and P. Heinsberger, secretary, were at their respective places. The proceedings of the last meeting were read and approved. The secretary brought out his first printed reports of delinquents, which were distributed among the members. A new form of letter to assist the members in collecting their bills was adopted, and 1,000 copies were ordered printed. Many members handed over to the secretary their list of delinquents or bad-paying customers. Meetings will hereafter be held twice a month, on Tuesdays at 9 P. M. in the office of the Merchants' Association. Other matters pertaining to the interest of the Association were discussed after which the meeting adjourned.

Mr. McQueen Misquoted.

In its report of the proceedings of the Board of Audit and Finance yesterday, this sentence was used by the STAR in connection with the disapproval of a bill for ice for the Princess street public drinking fountain, viz: "Chairman McQueen said he knew of no city in the United States which undertook to furnish people with free drinking water." Of course, everybody will understand that free ice water was intended instead of "free drinking water." This correction is cheerfully made in justice to Mr. McQueen. He said he believed no city in the world furnished free ice water to the public.

Big Display of Bulbs.

Raleigh *News and Observer*: "Of recent years bulb growing in the eastern counties of North Carolina has grown into an industry of commercial importance. Among the largest and most enterprising of these growers may be mentioned the H. E. Newbury Company, of Magnolia. This firm has applied for outdoor space surrounding the Palace of Agriculture at the St. Louis World's Fair, and will exhibit more than one hundred thousand bulbs growing in well modelled groups, consisting of caladiums, cannas, dahlias and tuberoses. These will cover several acres and will serve well to introduce to the middle West this new source of flowering and ornamental bulbs, most of which have heretofore been imported into this country."

Yearling Blocked the Track.

Fayetteville *Observer*: "A bull yearling, being driven to town by a farmer, created some excitement to-day at the lower Hay street A. C. L. crossing. When the animal reached the railroad track he refused to cross and the farmer tried to pull him over. The owner tugged and pulled, but the animal refused to budge. Meanwhile trains came rolling up from both directions, but were compelled to stop to keep from running on the farmer and the stubborn little animal. Some several hundred people, attracted by the blockage of trains, assembled on the scene, and all sorts of advice was given to the man with the bull yearling, with a sprinkling of not very courteous shouts from the railroad men. After struggling for nearly fifteen minutes the man gave up the fight and, ordering a dray, had the animal hauled to market."

A Marriage in Norfolk.

This afternoon at 6 P. M. the marriage of Mr. Geo. W. Britt and Miss Emma M. Wessell will take place at the Montecello Hotel, Norfolk, Va. Both parties are Wilmington people, the bride being the daughter of Mrs. A. C. Wessell. Mr. Britt is a well known and popular travelling salesman for Messrs. Mecum & Bros., of St. Louis, Mo. Many Wilmington and Norfolk friends and relatives will be present at the ceremony. Afterwards an elaborate supper was served. The bride and groom will take an extended tour through the North and West.

I. O. O. F. CHILDREN.

Party from Odd Fellows' Home at Goldsboro Had Delightful Outing Yesterday.

ENTERTAINED LAST NIGHT.

Exercises in the Academy of Music—A Day With Manager Hinton at Seashore Hotel—An Excursion to Carolina Beach—Notes.

The second day of the outing of the children from the Odd Fellows' Home at Goldsboro broke yesterday decidedly inauspicious so far as the weather was concerned, but by noon the elements had cleared considerably and the trip to Wrightsville Beach and return on the trolley cars was delightful. The party was the guest of the clever manager of the Seashore Hotel, Mr. Jos. H. Hinton, and he showered the wonted hospitality of the place upon his guests for the special occasion. A sumptuous dinner was served to the children at 3 o'clock, the menu consisting of the rarest sea delicacies for which the hotel is far famed. The little folks were made to feel perfectly at home and the bathing privileges of the Seashore were placed at the disposal of the party without money and without price. Many Odd Fellows and ladies accompanied the visitors and enjoyed the trip splendidly.

At 3:30 o'clock, in the large ball room of the hotel, the children gave an entertainment which was enjoyed by hundreds of friends. Each participant acquitted himself or herself with great credit and were given the most enthusiastic applause. The party returned to the city about 6 o'clock, and after supper at the various homes assigned them, the children gathered at the Academy of Music for the entertainment announced to be given by them with the assistance of local talent. Every floor of the large theatre, which was placed at the disposal of the committee free of charge by Messrs. Cowan Bros., the lessees, was packed to overflowing, many having been turned away before the exercises began.

The curtain went up with the fifty-three children, many of them clad in snowy white, seated with regard to their size in long rows facing the audience. In the group were Past Grand Master M. W. Jacobi, Superintendent J. F. Brinson, Chairman Jno. E. Wood, of the arrangement committee; Mayor pro tem. W. H. Yopp and Messrs J. J. Hopkins and J. T. King, whose devotion to the order is proverbial. There were also present the assistant matron of the institution, Mrs. Brinson and the Misses Brinson. The sight, when the curtain went up, was one to inspire the heart of every true Odd Fellow and admirer of the beautiful. Past Grand Master M. W. Jacobi made a brief introductory speech, in which he outlined the history of the orphanage and the work being accomplished by the order at that institution. In connection therewith he spoke of the plans for the establishment of a home for aged Odd Fellows, so ably championed by Grand Treasurer Richard J. Joens at the last meeting of the Grand Lodge I. O. O. F. in Wilmington. He welcomed the visitors to the city most cordially and presented Superintendent Brinson.

Mr. Brinson, in behalf of the authorities and children of the Home, spoke of the great pleasure it gave them to be present and reassured the Odd Fellows of Wilmington of their high appreciation. There are three great events in the lives of the children of the Home, said Mr. Brinson—Thanksgiving, Christmas and the annual outing at Wilmington and her seaside resorts. Upon each of these occasions the Wilmington Odd Fellows always do something to bind them closer to the hearts of the little ones in the Home. The annual outing is a great factor in making more perfect the discipline in the institution. Mr. Brinson spoke of the absent children and concluded with an appeal to the Odd Fellows of the city to subscribe for the paper published by the boys at the Home. Not long ago Wilmington headed the list of paid subscribers, but now Goldsboro claims the honor. Mr. Brinson asked that Wilmington again come to the head of the list where it numerically belongs.

Mr. Jacobi then announced the numbers on the programme each of which was enjoyed highly and warmly applauded. The programme was the same as printed yesterday, Mrs. J. D. Edwards, Miss Lillian Stroud, Mr. C. H. Cooper and Mr. A. S. Holden having contributed several musical features of a high order. The accompaniments were by Miss Elizabeth Divine Burtt.

To-day the children will be guests of Capt. Harper at Carolina Beach and upon that occasion the Daughters of Rebekah will run an excursion on the steamer, which will observe her usual schedule with the exception of the last train from the beach which will be at 11 P. M. All Odd Fellows and others who desire to do so, are urged to go. The round-trip fare will be only 25c.

Tri-Weekly Sleeper Off.

The tri-weekly sleeping car line, now being operated by the Seaboard Air Line on trains Nos. 14 and 15, between Hamlet and Wilmington, will be discontinued, last cars leaving terminals on dates mentioned below: Eastbound: Last sleeper will leave Hamlet, train No. 14, Saturday, August 22nd. West bound: Last sleeper will leave Wilmington, train No. 15, Monday, August 24th, 1903.

— Mr. Hermann Meredith, one of the popular clerks at the postoffice, returned last evening from a ten days vacation which he spent in Washington, D. C., and at other points of interest.

Excursionists by Coast Line.

Yesterday was the day upon which the A. C. L. and Southern railways ran excursions from along their lines to the mountains and seashore, tickets being good to return until Sept. 2nd. A party of some 15 or 20 Georgians and South Carolinians availed themselves of the low rate over the Coast Line and arrived last night on the 11:30 train to spend a while at Wrightsville. From many points, notably Charleston and Savannah, special trains were run to the mountains and various Summer resorts in the A. C. L. territory.

WILLIAM H. BERNARD.

WILMINGTON, N. C.

THURSDAY MORNING, AUGUST 20.

ROCKEFELLER'S POWER.

Savannah *News*: The biggest and most interesting figure in the financial world is John D. Rockefeller. If Pierpont Morgan is a giant, Rockefeller is a Colossus. His activity in the stock market lately has renewed speculation as to his plans and discussion as to the power that he wields in the affairs of the country. The late Mr. Gladstone once said of William Henry Vanderbilt: "The government ought to seize his property and take it away from him, as it is too dangerous a power for one man to have. Supposing he should convert his property into money and lock it up, it would make a panic in America which would extend to this country and every other part of the world."

Yet William Henry Vanderbilt's wealth was small as compared with that of John D. Rockefeller. The Standard Oil magnate is credited with owning from seven hundred and fifty millions to one thousand millions of dollars, and controlling much more. His share of the dividends of the Standard Oil Company during the last few years has been at the rate of forty million dollars a year, and his income from other sources has given him a total income of about one million dollars a week for each of the fifty-two weeks of the year. Supposing, as Mr. Gladstone said of the less wealthy and more sensitive Vanderbilt, that Rockefeller should use his vast wealth to squeeze the markets, wha would be the consequence? As a matter of fact the ugly charge has been made in Wall street that Rockefeller manipulated the recent slump in stocks for purposes of his own. Of course no such thing can be proved and it would be impolitic to say it is true; yet, so far as the public knows, there is nothing in the career of John D. Rockefeller that indicates him to be incapable of using his giant power like a giant if he deemed it to his advantage to do so. His genius heretofore has been in the line of crushing opposition and amassing money from the ruins, and of squeezing his employes and patrons, and amassing more money from their necessities. Such things, however, he, a pillar of the church, regards as "business" and strictly legitimate. Would he regard any use of his money that promised profits to himself as other than a business matter?

While it cannot be shown that Rockefeller brought about the slump in the stock market, it is known that he has bought largely at the bottom figures reached. Walter Wellman writes to the Chicago *Record-Herald* from New York that not less than one hundred millions of dollars from the coffers of Rockefeller and his contingent have recently been put into standard stocks at what looked like cheap figures. Wellman says further, on authority of a Wall street man in a position to know that Rockefeller has already virtually obtained control of the New York Central Railroad and that he is to become the dominating influence in it, that he is the power behind George Gould in Missouri-Pacific and Wabash affairs, that he has a voice in the control of the Baltimore and Ohio and will shortly have a voice in the management of the Pennsylvania. With these mighty systems in his grasp, says Wellman, "he soon will be, if he is not already, the most powerful man in American railways and finance; greater than any Vanderbilt ever was, or Jay Gould, or Morgan, or any of the men of the golden era of American industrialism."

What does Rockefeller want of all these roads and systems and of his hundreds of millions? Why, he wants more power, to make more money, and more money to make more power. It would not be surprising if, within the course of the next few years, Rockefeller should become a leading consideration in politics.

WEATHER AND CROPS.

New Orleans Picayune: The past week has developed ideal conditions from the standpoint of the agricultural interests of this section. There has been sufficient rain without superabundance, and the temperature has been decidedly higher and in keeping with the season of the year. As a result, the reports from all parts of the country tributary to New Orleans are of a uniformly favorable character.

With respect to cotton, the general verdict is that rapid progress has been made during the past two weeks. The plants are growing rapidly and fruiting well, although still decidedly backward in point of maturity, owing to the exceptionally late start. There is now no cause for complaint in the way of the crop fruiting properly, about the only cause for apprehension being that the lateness of the crop in maturing will permit the frost period to arrive before the plants have developed all the bolls, and in that way a promising crop be materially reduced in yield.

After all it is the lateness of the frost period and an open Winter that permit the cotton plant to do its best. Even a promising crop may have its size materially shortened by either an early frost or a bad and rainy Winter, or both. It has also happened that a crop which promised but a moderate yield has been materially added to by the postponement of frost to a late period and by a dry Fall, which permitted not only the maturing of a good crop, but also made it possible to save all the cotton actually grown.

While the crop condltions seem promising at the present moment and the plant is making good progress, the fact that it is very late, in point of maturity, creates much uncertainty as to the final results. The crop is, in fact, more than ordinarily dependent upon the date of frost and the character of the weather during the harvesting period.

CURRENT COMMENT.

— "The Nebraska Prohibitionists want their share of the Populist break up. On the top of the customary denunciations of drink, they declare in favor of the initiative and referendum, woman suffrage, public ownership of utilities, and the election of the President and Senators by direct vote."—*Albany N. Y. Argus, Dem.*

— "Pension Commissioner Ware will eventually come to understand that criticism of the pension office or even of himself personally is not necessarily high treason punishable by hanging, drawing and quartering. It is, however, encouraging to see that at least one federal functionary is sensitive to criticism. Mr. Payne, it will be remembered, was at first inclined to dismiss it with the disparaging designation 'hot air.'"—*Chicago Chronicle, Dem.*

— If Georgia's lobbyists are all of the type of the solitary would-be briber of whom the committee investigating the subject in the Legislature was able to get a glimpse, there is no need for serious apprehension. This "smooth faced young man of apparently between 27 and 30 years of age" was so lacking both in prudence and in enterprise that he abruptly approached a member not previously "sounded" with the suggestion that it would be worth $500 for him if he voted for a certain bill, and, having thus begun negotiations, never followed them up, but vanished from sight that day, bank roll and all. Aside from this case, the committee has handled the subject with very thick gloves. —*New York Evening Post, Ind.*

— Scandals involving greater frauds than those of the Postoffice Department are said to have been discovered in connection with the Indian lands of the West, and the names of many prominent and influential men are understood to be connected with them. The amount of money secured by the fraudulent transactions, according to the story, will make the "graft" in the postoffice establishment appear insignificant by comparison. An agent appointed by the President has for some weeks been prosecuting an investigation into the matter. It is said he has fouud enough to convince him that certain members of the Dawes Commission, which was created for the benefit of the Indians, have been victimizing Indians on a large scale in land transactions. One of the names mentioned in a preliminary report by Mr. Brosius, the President's commissioner, is that of the chairman of the Dawes Commission, who is vice president of a company that deals in lands in Indian Territory. Several other members of the commission are also mentioned in connection with the grabbing of Indian lands.—*Savannah News.*

— Mrs. Stuyvesant Fish's guests are much annoyed at the announcement that there were no lions at her recent dinner.—*Punch.*

— "I wonder if there's any room in the literary field?" said the youth who thought he was cut out to write novels. "If thar ain't," snapped the hustling old farmer, "there's room in the cornfield. Here's a hoe!"—*Philadelphia Record.*

— "I reckon Josh'll make his mark in the world one of these days," said the fond mother. "Mebbe he will," answered Farmer Corntossel; "but I can't help wishin' I could get him to take hold of a hoe an' put a few dints into it by way of practice."—*Washington Star.*

English Brass.

The composition of English brass is about seventy parts of copper and thirty of zinc. "Prince Rupert's metal" contains 75 to 80 per cent of copper and on account of its golden color is employed to some extent in jewelry.

The kind of brass called tombac contains still more copper, nearly eighty-five parts in a hundred. It is the alloy used for the manufacture of what is called Dutch metal, an imitation of gold leaf. It can be rolled into sheets, and these can be beaten out till they are only fifty-three thousandths of an inch in thickness.—Chambers' Journal.

Two Sides to It.

Wife—It's hateful of you not to give me the bonnet I want. Ah, me! If you only knew how much I have to put up with!

Husband—Huh! If you only knew how little I have to put up with, you wouldn't ask me to put up for a bonnet. —Philadelphia Press.

A Versifier.

Cold Weather In Canada.

Maxwell H. Graham, Esq., son of the late General Sir Gerald Graham of the British army, relates a remarkable instance of the extreme cold of the Georgian bay district of Canada, where in winter the thermometer frequently falls to 30 or 40 degrees below zero. Mr. Maxwell Graham, who owns the Lyndock stock farms, arose early one morning last January to investigate a noise he had heard in the kitchen. To his surprise, he saw the family cat standing stock still in the very attitude of springing upon a mouse, which faced the cat with a horrified expression. Both animals were frozen as hard as stone. The cat's tail was extended and the mouse's mouth slightly opened, as though it had uttered a cry of terror.—Lippincott's.

Successful Resuscitation.

There are still undeveloped possibilities in electricity. A man in an apparently moribund condition was recently taken into the Melbourne hospital, and in order to revive him an electric shock was administered. The results were startling and unexpected. A demoniac energy was instantaneously infused. He sent the doctor sprawling on the floor and flung a couple of assistants out of the window. Then he proceeded to wreck the ward, while nurses ran away shrieking and barricaded themselves. He had done a hundred pounds' worth of damage before the police, who were telephoned for, arrived. Electricity as a medical agent seems to be as yet imperfectly understood.—London Chronicle.

Senator Quay's Way.

A Pennsylvanian who was in Chicago a few days ago threw a side light on one of the methods by which Senator Quay holds control of the Keystone State. "One time I wrote him," says this man, "asking a favor, which he granted at once, apparently glad to do so. About two years later I received by mail my own letter, across the back of which was written, 'Dear Jim, will you do so and so for me?' It was signed by Mr. Quay, and you bet I lost no time in doing as he asked. He's a wonder, is Matthew Stanley Quay."—Chicago Post.

It Was No Picnic.

Representative Blumle's large family bill (this may be read two ways) recalls the story of the mother who boarded a street car with her brood of ten. "Are these your children," snapped the rude conductor, "or is this a picnic?" "They are my children, and it's no picnic," she answered.—Philadelphia North American.

ALL OVER THE HOUSE.

Devices Which Lessen the Labors of Housewives.

Men in their places of business adopt each new invention as it comes out regardless of first cost, knowing that economized energy and increased output will more than compensate. A woman nearly always thinks with regard to this or that kitchen appurtenance, "Oh, it will do," and so long as she can make it do by any means whatever she will make no change.

For instance, there is a new kind of kitchen cabinet which saves steps to a perfectly wonderful extent. It has zinc lined bins for flour and sugar, wonderful little pigeonholes for flavorings, receptacles for the rolling pin and other needfuls and a snow white pastry board which lets down from somewhere or other in the most surprising manner all ready for the mixing of dough. Set a housewife down in the midst of the Sahara desert, and if provided with that cabinet and a gypsy fire she could turn out any number of culinary dainties. Nevertheless here in civilization she will probably persist in gathering her materials for a pie from the four corners of the kitchen, in reaching up to the top shelves of the dresser and in running up and down the cellar stairs.

Another device invaluable for those who do washing at home and costing but a few dollars will cleanse in five minutes a whole tubful of soiled clothing. How many backaches this alone might save!

When will housewives learn that true economy is often injudicious expenditure?

Table Linen.

Never buy a mixture of cotton and linen, and beware of damask that is stiff and cracky, for it has probably been starched to make it appear of better quality than it really is. Good linen has an elastic texture. Some of the finer French damasks appear exquisite, but they do not pass the soap and water test creditably. Considering all points, the Irish linen is far superior to any other.

Two yards and a half is the best width for general use, as it covers well a table four feet wide, and three yards is a convenient length for the ordinary table. It is well to have two cloths of the same piece in case of a considerable extension of the table on some special occasion, and one very long cloth may be so rarely used as to become yellow. The cloths that come woven in one piece are especially beautiful in design and texture and cost a mere trifle more than the web goods.

Avoid very large napkins. No one likes them. Select a medium size and buy a dozen or a dozen and a half to go with each cloth. Don't starch your linen when it is new, but when it begins to get thin and limp a little thin starch is admissible.—American Queen.

Attractive Ware.

A very pretty ware shown by the large department shops, which for some time has been slowly working its way here, is the German delft. This was used by the Germans, whose wives are noted for their wonderful knowledge of housekeeping. It is pearl white, decorated in queer designs of pale blue, has a smooth, shiny surface and is made up in barrel shaped jars used for cereals, spices and groceries of all kinds.

A shelf lined with a row of these delft jars would be quite an attractive sight to meet the eye of one who might open your closet door, and they would at once be impressed with the thought that you have a place for everything and everything in its place.

The Care of Silver.

To prevent silver from tarnishing place a few lumps of camphor in the box or drawer containing the silver articles. This will neutralize to some extent the gases which turn silver dark. If silver is to be stored for some length of time, it should be cleaned thoroughly and placed in cotton flannel bags that can be closed tightly at the top. Then these bags should be wrapped in paraffin paper or, still better, in beeswaxed paper. To make the latter (it cannot be bought) take ordinary manila paper and lay it on a smooth surface covered by a white cloth. Shave the beeswax thickly over the paper and then pass a hot iron over the paper, when the wax will be melted right into the paper.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, Aug. 19.—The cotton market opened steady at a decline of two points on August and September, while the later positions were one to two points higher. The declines in the near months were due to realizing, while the later months were sustained by the steady cables and continued talk of too much rain in the belt and damage by boll weevil. At the start, however, there was little demand from any source, weather reports aside from further rains in certain direction were favorable and later cables from the English market showed a lower tendency abroad. This brought about realizing by recent buyers and at the end of the first few minutes September showed a net loss of eight points with the later positions one to three points lower. August was comparatively dull and neglected during the entire session, selling as low as 12 25 and as high as 12.36, closing at 15 26. At or around 10 67 for September the clique became more aggressive and their support started covering by the room contingent which continued during the balance of the session and held values about steady. There were occasional reactions during the after noon and the close was a little off the best of the day. The market was finally dull, net one point higher to three points lower for August; September and November three points lower; October two points lower; December unchanged, and the last three options one point higher to one lower. Twenty-two hundred bales of cotton were received here from Liverpool today and by a curious coincidence 2,200 bales were shipped from here to that market. New York spot sales were 925 bales, all to spinners. Sales of futures estimated at 75,000 bales.

DR. MOFFETT'S TEETHINA (TEETHING POWDERS)

Cures Cholera-Infantum, Diarrhœa, Dysentery, and the Bowel Troubles of Children of Any Age. Aids Digestion, Regulates the Bowels, Strengthens the Child and Makes TEETHING EASY.

Costs Only 25 cents at Druggists,

Or mail 25 cents to C. J. MOFFETT, M. D., ST. LOUIS, MO.

OFFICE OF D. H. HARDY, Secretary of State, AUSTIN, TEX., Nov. 21, 1900.

I have found Dr. Moffett's TEETHINA a splendid remedy and aid for my teething children. When my oldest boy was a teething child, every succeeding day warned us that we would inevitably lose him. I happened upon TEETHINA, and began at once administering it to him, and his improvement was marked in 24 hours, and from that day on he recuperated. I have constantly kept it and used it since with my children, and have taken great pleasure in sounding its praises to all mothers of young children. I found it invaluable even after the teething period was passed.

MRS. D. H. HARDY.

A Visitor

In the morning of a sultry July day Professor Botkine of the University of California was sitting on his front steps at Berkeley.

He was delightedly watching the efforts of his pet toad to capture a very large angleworm, and his enjoyment was enhanced by the fact that his beautiful German wife, who usually declined to interest herself in anything which she even suspected of a connection with science, was seated beside him, giving eager little pressures to his hand and uttering a pleased exclamation in her pretty foreign accent whenever the toad made an extra effort.

The worm gave a little wriggle as it began to come out of the ground, when, quick as a flash, the toad made a leap and seized the end of the worm in its mouth.

Then began the tug of war. But the toad was not to be discouraged. It jerked and jerked until it fairly stood on its hind legs. Still it could not dislodge the worm.

At this interesting point a train whistled.

"Why, Selma," said the professor, "there is the train already! I had quite forgotten that I must go to the city today. Where is my hat?"

"Do wait an instant, dear. Just see what that toad is doing!" she answered, holding him back.

He glanced down and saw the toad twisting its legs about until the worm was wrapped twice around it. Then the toad gave a hop, and out came the worm. This had been too fascinating a spectacle for the unwary professor. He dashed into the house and back again, kissed his wife and, with a regretful glance at her rippling hair and soft blue eyes, started off.

Suddenly he rushed back.

"Why, dear," he cried, "I forgot to tell you that Mr. Smith, the Canadian who wrote the paper on bacteria, will be here this afternoon to stay a day or two. He may come before I am back."

She clasped her hands in mock despair.

"Oh, don't be alarmed! Just let him have a good soaking in a bathtub. Then he will come out perfectly human and happy. He's an Englishman, you know."

She grew sober as she thought how ruthlessly science and scientists seemed to dog her unwilling footsteps. Her husband certainly loved her, but he had a way of becoming utterly absorbed in his studies and then bursting into her reflections with remarks which sounded perfectly ghoulish.

Now here was this Canadian coming! And how was she to be properly interested in his old bacteria and not disgrace her husband by betraying her ignorance on the subject? she asked herself.

Manifestly he must take a bath, and everything possible must be done to make the bathroom attractive, so that he would stay there as long as possible. She went upstairs, and her own dimpled hands got down a new cake of perfumed soap.

She eyed it critically. Perhaps his severe scientific mind would be disgusted with such effeminate luxury.

She would place beside it a cake of white castile. Then, whatever his tastes, he must be pleased.

She put the alcohol and a cologne bottle within easy reach, got out smooth and rough towels and a bath blanket, saw that the shower bath worked and, with a sigh of relief, went downstairs to impress the cook that during the entire afternoon there must be plenty of hot water in the boiler.

Suddenly a happy thought struck her. She went into her husband's study and brought out every book on bacteriology that she could find. These she ranged on a shelf at the foot of the bathtub. Standing out a little beyond the others, as if but just shoved in, was Mr. Smith's own pamphlet on bacteria.

Mrs. Botkine pinned on the wall some colored illustrations of various forms of bacteria and then surveyed the effect with the calm satisfaction of a general who foresees the success of his maneuvers.

She had done all she could. With this virtuous feeling she was able to go about her occupations for the day and in the afternoon even banished the thought of her expected guest enough to take a quiet nap.

She was awakened by a knock at her door, and the maid handed her a card bearing the seemingly innocent inscription, "Mr. Worthington Smith."

She lingered outside the drawing room as long as she dared and then, putting her trust in the bathroom, walked in and greeted her visitor with a smile of timid welcome.

He did not look at all alarming.

World's Largest Mirror.

The Hotel Savoy in New York plumes itself upon the possession of the largest mirror in the world. Only two steamships of the ocean, one of them the Friesland, in which it came, have room in their holds to stow away such a large package. It is a little more than thirteen feet square and is nearly half an inch thick. To get this perfect plate five different glasses had to be cast. It was made at the St. Gabian Glass works, in Paris.

Radium.

Radium is self luminous, shining with a bluish light. It, like Roentgen rays, makes a sensitive screen phosphorescent. It shows the bones in the hand and is so vigorous that it has produced sores on those who have incautiously carried it about their persons. The radium emits negatively electrified particles with a velocity in some cases approaching that of light.

Not Appreciated.

Bjenks—It certainly seems to me that a man like Bjackson, who has worked hard all his life and brought up a family of sixteen children, deserves a great deal of credit.

Bjones—No doubt. But he can't have it at the stores.—Somerville Journal.

The Vera Cruz Buzzards.

The buzzards that have long infested Vera Cruz and served a useful purpose as winged scavengers are doomed. A London firm is putting in a modern sewer and water system. The birds have become so numerous that they are a pest. The protection of the municipality has been removed, and when the new drainage system is completed the city will be rid of this pest, the numbers of which have already been reduced somewhat by catching the buzzards and placing them in wooden cages to be taken to sea and drowned.

Bad For the Inquisitive.

An American has invented an envelope which records of itself any attempt to tamper with its contents. The flap is imbued with some chemical composition which when operated upon by a dampening process or any other means of penetrating to its inclosure records the transaction by causing the words "Attempt to open" to appear. It is thought that the inquisitive will think twice before pursuing their researches in face of such an invention.

Ostriches.

There are about 1,000 ostriches in America. These are on two farms in southern California. The annual feather crop of these birds when manufactured and ready for market is worth about $100,000. Ostriches have sold as high as $4,000 for a single pair. There are no ostriches now for sale in the United States.

End of Bitter Fight.

"Two physicians had a long and stubborn fight with an abcess on my right lung," writes J. F. Hughes, of DuPont, Ga., "and gave me up. Everybody thought my time had come. As a last resort I tried Dr. King's New Discovery for Consumption. The benefit I received was striking, and I was on my feet in a few days. Now I have entirely regained my health." It conquers all Coughs, Colds, and Throat and Lung troubles. Guaranteed by R. R. BELLAMY, druggist. Price 50c and $1.00. Trial bottles free.

WILMINGTON, N. C.

THURSDAY MORNING, AUGUST 20.

INTERNATIONAL RACE TO-DAY

Shamrock III Will Try Conclusions With Reliance for the America's Cup Great Crowd Expected.

By Telegraph to the Morning Star.

NEW YORK, August 19.—Over the ocean race course outside Sandy Hook slip the challenger, Shamrock III, will to-morrow try conclusions with the new defender of America's cup, the Reliance. It is expected that one of the largest crowds which ever witnessed an international cup race will go out to see the initial contest for the blue ribbon of the sea.

Again this year, as in the two preceding series, the government will police the course with revenue cutters and the most stringent rules have been laid down to prevent interference by the excursion fleet with the big single stickers.

In neither of his previous attempts to carry off the "mug" did Sir Thomas sail on a challenger. To-night he was in doubt whether to sail in the challenger to-morrow. His friends on the Erin urged him not to do so, for fear of an accident.

The weather prediction for to-morrow is not alluring, the forecaster promising a breeze of from three to nine knots. A seven-knot breeze will be necessary to carry the boats over the course in the allotted time.

Shamrock III was re-measured to-day, the results showing that the Reliance will have to give her one minute and fifty-seven seconds time allowance.

When asked for a prophecy of the result of to-morrow's race Sir Thomas said:

"I am more confident of winning than ever, and my confidence is shared by every man on the fleet and other admirers of the Shamrock III. Designer Fife is thoroughly satisfied with the tuning up that Shamrock III has received and Captain Wring is confident."

In reply to a question whether or not there was any basis for suspicion that the challenger had not been permitted to show all her speed in her trials with Shamrock I, Sir Thomas said: "There never was any jockeying. I do not consider it an honest way of getting people to bet their money. Except in a few cases when Mr. Fife has wanted to sail alongside of Shamrock I, we have always done the best we could, and I have always wanted to see her do her best."

Sir Thomas added jokingly: "Shamrock III will win the first race by either six or seven minutes, I'm not quite certain which; and the second race by four minutes and a half. You will have to ask me about the third race later.

A flood of letters, telegrams and cablegrams reached the Erin to-day from all parts of the world, bringing wishes for the success of Sir Thomas and Shamrock III. One cablegram came from Lagos, Portugal, from Lord Charles Beresford, saying that all the officers and men of the channel fleet sent hearty good wishes and hopes to hear that Shamrock III had won by a length.

BROKEN OUT AFRESH.

The Trouble in the Government Printing Office at Washington, D. C.

By Telegraph to the Morning Star.

WASHINGTON, Aug. 19.—The controversy between the Bookbinders' Union and William A. Miller, assistant foreman in the government printing office, has broken out afresh. At the close of the day's work Monday, Public Printer Palmer handed to Mr. Miller a set of charges which had been prepared by the union. Miller sent them back to the public printer yesterday with the statement that they were mads by irresponsible parties; that they were based on hearsay and were too absurd to seriously consider.

It was learned that the charges were mainly directed against Mr. Miller's personal character and related to acts said to have been committed as far back as twenty-five years ago

An official of the government printing office stated that Miller's status in the office is not likely to be disturbed.

By Telegraph to the Morning Star.

FORT SMITH, ARK., Aug. 19.—Wm. Hicks and his wife, the supposed leaders of the band of negroes who are accused of kidnapping a white girl of Fort Gibson, Indian Territory, have been captured and lodged in jail here. News has been received of the capture of all the other members of the band. A party of farmers who attempted to rescue the girl yesterday was fired upon by the negroes and one of their number, a man named Pate, was killed. ENERGETIC STEPS AGAINST TURKEY.

Russia's Action May Be Followed by a Joint Demonstration by the Powers.

RUSSIAN NAVAL SQUADRON.

Italian Squadron Ordered to Macedonian Waters to Watch Events—Nothing to Warrant Belief of a General Conflagration.

By Cable to the Morning Star.

PARIS, Aug. 19.—It was learned in official quarters to-day that the action of Russia in ordering a naval squadron to Turkish waters may be speedily followed by important joint naval action on the part of the powers. Communications are at present being exchanged between the powers relative to a joint naval demonstration before Salonica.

The final determination will depend largely upon Russia, but if a joint demonstration is determined upon the fleets of France and Austria will certainly co-operate and it is probable that the fleets of all the other European powers having Turkish interests, except possibly Germany, which throughout has not favored taking energetic steps against Turkey, will take part in the demonstration.

In the meantime the Russian squadron will not proceed to Constantinople, as has been reported, but will rendezvous off a small port of the Vilayet of Adrianople, above the entrance of the Bosphorus. For the present this squadron has no orders to assume an aggressive course. Its action will depend on Turkey's fulfillment of the terms of Russia's final demands in connection with the assassination of Consul Rostkovski.

The Russian Squadron.

CONSTANTINOPLE, Aug. 18.—The Russian squadron is expected this afternoon. It will anchor in the Bay of Miads, off the coast of European Turkey, between Burgas and the entrance of the Bosphorus, eighty miles from the latter.

The attitude of indifference hitherto assumed by the Turkish officials toward Russia's action is giving way to one of marked concern.

The Porte fears that Russia contemplates making still more important demands than contained in the recent note of M. Zinovieff, the Russian ambassador, such as the appointment of a Christian governor general of Macedonia. This idea, however, does not find support in diplomatic quarters, where the conviction prevails that Russia is working in full agreement with Austria.

Demands Presented.

The Russian demands on Turkey, growing out of the recent murder of the Russian consul at Monastir were formerly presented at the Yildiz palace to-day.

Notwithstanding the warning which Russia addressed to the Bulgarian government, it is generally believed here that the Russian naval demonstration in Turkish waters will dangerously encourage the Macedonians, who, it is asserted, will interpret Russia's action as being the first step towards intervention in their behalf.

The insubordination of the Turkish troops is regarded as being one of the greatest dangers of the present Balkan crisis. The lack of discipline among the soldiers is marked.

The ambassadors of the powers have again drawn the earnest attention of the Porte to the fears of massacres at Salonica and have demanded the adoption of immediate and effective measures for the protection of the foreign consulates and the subjects of the various powers.

Italian Fleet to Watch Events.

LONDON, August 19.—The Italian ambassador here to-day received a dispatch from Rome announcing that an Italian squadron had been ordered to Macedonian waters to "watch events." No explanation was given of the reasons underlying the orders, and the embassy officials were unable to say whether it was a result of Russia sending a squadron to Turkish waters. It was regarded as probable that the foreign office at Rome had received advices showing that Italian interests, which are important at Salonica and in its neighborhood, are menaced.

The general concensus of opinion among the diplomatists in London is that there is nothing in the present situation to warrant the belief that it will develop into a general conflagration, as the powers are co-operating generally to preserve the peace of Europe.

In the Far East.

The situation in the far East, especially the national agitation in Japan, is regarded by some diplomats as being as threatening as the Balkan situation. The Japanese officials hardly attempt to conceal their belief that their government will act in the far East, should such an opportunity offer as the embroilment of Russia in the Balkans.

SOFIA, BULGARIA, Aug. 19.—The general Macedonian situation is regarded in official circles here as being distinctly less dangerous than it was a week ago. Now that unanimity of action on the part of the most interested powers towards a speedier enforcement of the reforms in Macedonia seems assured, there is a more hopeful feeling that the trouble will be confined to its present bounds.

LONDON, Aug. 19.—Dispatches received here from Yokohama, under to-day's date, say all the leading newspapers of Tokio have abandoned the silence which they have hitherto observed regarding the situation in Corea, and publish articles strongly denunciatory of the action of Russia. The *Fiji* declares it is time to show Corea that Japan's patience is exhausted, while the *Shimbun* urges the government to demand explanations of Russia.

Both the papers mentioned are newspapers of moderate tone. An agency interview with Viscount Hayashi, the Japanese minister, quotes him as saying:

"Not only I, but my government, disclaim all the panic stories of war between Russia and Japan. All fears of a conflict are groundless. Both Russia and Japan are really trying to be conciliatory. War would not be an advantage to either. So far it has been a game of bluff. Japan has no warships building in England and has not increased the strength of her army in view of possible events.

LONDON, August 19.—A dispatch to a news agency from Vienna says Bulgaria has ordered fifteen million cartridges from a Viennese firm, for prompt delivery.

The remains of the late Judge Jno. G. Long, United States consul general and diplomatic agent at Cairo, Egypt, who died as the result an accident in Dunbar, Scotland, July 28th, arrived in Washington yesterday. Funeral services will be held there to-day and the interment will be in Rock Creek cemetery.

TO MAKE A NEW PANAMA CANAL TREATY.

Action Taken by the Colombian Congress. To Resume Consideration of a Treaty in Place of One Disapproved

By Cable to the Morning Star.

BOGOTA, COLOMBIA, Friday, Aug. 14.—A bill is ready, authorizing the government to make a new canal treaty with the United States upon a fixed basis and also providing for modifying the national constitution.

WASHINGTON, Aug. 19.—Unofficial but what is considered entirely reliable information, has been received by Dr. Herran, the Colombian charge d'affaires here, indicating an intention on the part of the Colombian Senate to resume consideration of the subject of a Panama canal treaty in place of the one disapproved by that body on the 12th inst. This is a decided change in the turn of affairs and leads Dr. Herran to hope that a measure yet will be passed by Congress which will form the basis for the ratification of a treaty between Colombia and the United States for the construction of an isthmian canal. Dr. Herran's information is that on the 13th inst., the day after the disapproval of the treaty by the Senate, that body voted to appoint a committee of three members to act jointly with a committee from the House of Representatives in the formation of a measure having for its object the ratification of a treaty between the two countries, after the two houses of the Colombian Congress had passed an enabling act outlining the terms and conditions on which a treaty should be drawn. The President of Colombia, by this act, would have full power in the premises and the treaty would not have to be afterwards submitted to the Colombian Congress.

The Associated Press dispatch from Bogota, it is explained, would indicate that perhaps the initiative taken by the Colombian Senate, according to Dr. Herran's information, already had borne fruit, and that committees from the two houses of the Colombian Congress have agreed on a measure making possible, the preparation and ratification of a treaty.

A more careful reading of the dispatch which Dr. Herran received early in the week announcing the action or the Senate on the treaty, shows that what that body really did was to "disapprove" the instrument and not to "reject" it, as has been stated heretofore.

The Nicaragua Route.

PARIS, August 19.—Dr. Cores, the minister of Nicaragua to the United States, to-day declined to discuss Colombia's action in rejecting the canal treaty, but when asked if Nicaragua was ready to reopen negotiations, he said:

"I am not authorized by my government to re-open negotiations or to take any action on the subject. In fact, my instructions are to remain entirely inactive. Nicaragua occupies the dignified position of not wishing to thrust her route upon the consideration of the United States. We believe our route to be superior from every point of view.

"If any initiative is taken toward renewing the negotiations on the Nicaragua route it will have to come from the United States, as Nicaragua will continue to occupy her position of dignified reserve."

A TEXAS BANK FAILS.

The Citizens National and Savings Bank at Beaumont Closed—Liabilities Believed to be Large.

By Telegraph to the Morning Star.

BEAUMONT, TEXAS, August 19.—The Citizens' National and Savings Bank was closed to-day by Bank Examiner Logan, who has been here for several days looking over the affairs of the institution. Examiner Logan positively refused to say anything concerning the status of the bank's affairs, except that he had prepared a statement for the comptroller of the currency. It is rumored that the bank has a large sum in paper, which is alleged to be practically worthless. It is also stated that there are $200,000 in overdrafts.

The bank was opened for business May 31, 1901. The capital stock was $100,000 and the deposits have ranged in the neighborhood of $800,000 until recently.

The other banks in the city were prepared for the collapse. Their officers state that they have provided for any emergency that may arise and that no other bank will be affected by the crash.

The failed bank is officered by men well known financially in the State, the published list of directors including ex Governor J. S. Hogg, who is in the city now; Rod Oliver, J. S. Cullinan, at the head of the big Texas oil company; R. E. Brooks and W. T. Campbell, formerly members of the Hogg-Swayne syndicate. Rod Oliver, president of the bank, is connected with a number of banks throughout the State. He is in the city and is thoroughly posted as to the affairs of the institution. He denied himself to all save intimate friends to-night. Gov. Hogg to-night said he was not a director; he had been elected but had not accepted the place. He gave his own losses as "several thousand dollars."

ICE CREAM PARTY.

Over Fifty People Poisoned, One Fatally, Near Roanoke Rapids, N. C.

By Telegraph to the Morning Star.

RALEIGH, N. C., August 19.—A special from Weldon, N. C., says:

At a largely attended ice cream party, given by the young people of Roanoke Rapids, near here, over fifty people were poisoned by eating the cream, and one young man named J. N. Crowder died from the effects. Physicians were hurriedly summoned and at last accounts the others were slowly recovering. It is stated that condensed milk was used in part in the making of the cream. One of the factories shut down in consequence of of so many of the operatives being ill.

BROKE WORLD'S RECORD.

Dan Patch Paced a Mile in 1:59 Minutes at Brighton Beach.

By Telegraph to the Morning Star.

NEW YORK, Aug. 19.—Dan Patch broke the world's record to-day for pacers by pacing a mile in 1.59 at Brighton Beach, beating the record of 1.59½ held by Star Pointer. It was a most magnificent performance. There was a stiff breeze blowing which struck the horses fairly in the face. The track was a little slow but the effect of the wind was discounted by sending a runner in front, while the second runner galloped alongside.

DISCUSSION OF VITAL TOPICS.

Hon. David B. Hill's Speech Before the Niagara County Pioneers' Association.

GREAT GATHERING OF PEOPLE

Mob Law Versus Due Process of Law. Mob Violence Denounced—Spectacularism — Fictitious Versus Real Prosperity.

By Telegraph to the Morning Star.

OLCOTT BEACH, N. Y., Aug. 19.—From twenty to thirty thousand people attended the annual picnic of the Niagara County Pioneers' Association to-day. The morning was taken up with a business meeting of the Association, followed by a reception to former Senator David B. Hill.

An immense crowd gathered at the open air theatre, where the exercises of the day were held.

Attorney General Cuneen was the first speaker. He extolled the industry, intelligence and character of the pioneers of western New York. Mr. Cuneen then paid a tribute to Senator Hill, who was the next speaker.

Mr. Hill in opening discussed "mob law versus due process of law." He said:

"Mob violence is not rendered less objectionable, even if it be true, as frequently asserted, that unless it shall interpose its strong arm the guilty may escape punishment through a lax administration of the criminal law or indifference to its enforcement on the part of the people themselves. The very excuse offered is a reflection on the community itself where the crime has been committed, and the remedy lies not in the people themselves overriding the law, but in the people upholding and enforcing the law and in an appeal to their patriotism, their good sense, their innate love of justice and respect for order—qualities which are seldom if ever invoked in vain. We cannot permit this government to become a mobocracy which acts upon impulse, feels no restraint and recognizes no appeal from its hasty pre-judgment. Crimes which can only be punished by such irresponsible tribunals as mobs might as well not be punished at all, because in the end the remedy will be worse than the disease.

"The duty of every American citizen who loves his country and its free institutions is plain. He should assist in the creation of a healthy public sentiment which should demand that no person charged with crime shall be punished therefor except under due process of law and by lawful officials, and after a trial before a court and jury as provided by the wise and beneficent provisions of our Federal constitution, and these vital provisions so essential to the public welfare, must be respected in every part of our domain, and wherever our American flag shall permanently float; and every man, whether white or black, native or foreign born, rich or poor, educated or unlettered, must be protected in life and liberty."

Taking up another subject, Mr. Hill said:

"The tendency of the times is towards indulgence in that peculiar species of sensational performance, which may be characterized in general terms as 'spectacularism,' if I may be permitted to coin that word.

"Spectacularists usually affect superiority over other people; in the matter of patriotism they desire to be regarded as the only true patriots; they assume to possess all the virtues, while other people in their estimation possess all the vices. They abhor silence and obscurity. They assert the commonest kind of self-evident propositions, which have become moss-covered from age, with an emphasis as though they were oracles and as though their platitudes were wholly original.

"They have their press agent, who, unsolicited, supply the newspapers gratuitously with the details of what they do each morning, noon and night, as though the world was holding its breath for fear that something would escape it pertaining to themselves. If they happen to hold a public office they are delighted to see their smallest acts paraded, magnified and applauded. They are sure that there was never before such public officials as themselves—so earnest, so honest, so self sacrificing. They meddle with everything, whether within or without their jurisdiction, and usually muddle everything with which they have anything to do.

Spectacularism, as here interpreted, is a sort of disease—it expands the head and contracts the conscience; and may appropriately be called egomania, which is another name for egoism.

"The hope of the country lies in the great mass of cool, deliberate and conservative citizens, who pursue their avocations and perform their duties unostentatiously, and entertain sincere convictions of their life's work. They neither delight in war, in contention, nor in unnecessary strife. They carry no chip upon their shoulders always looking for trouble. Their ways are ways of pleasantness and their paths are peace, and they believe that righteousness, more than the triumphs of war, exalteth a nation."

Mr. Hill discussed "fictitious versus real prosperity" as follows:

"There is a chorus of assertion constantly reiterated that the country at the present time is enjoying a period of much prosperity. There are grave reasons for doubting the entire incorrectness of the statement. It is conceded that many public works are in progress of construction and many important enterprises are in process of development, but the fact must be borne in mind that most of these schemes are being floated upon borrowed capital—that the future is being largely mortgaged—and that profits to hereafter accrue and dividends to be hereafter declared are already being anticipated, and there is no adherence to the good old-fashioned and safe doctrine of 'paying as you go.' The country has been surfeited with the issue of various stocks and bonds, which have been palmed upon a confiding public under the promise of profits—never earned and not likely to be earned until a financial reaction has set in, which has disturbed public confidence, inaugurated a falling market and temporarily at least, even if not for some time to come, prevented safe financial investments, and the end is not yet.

"Commercial centres seem to be looking to Congress for some sort of financial relief, the exact nature of which is not stated twice alike. You will recall the fact that it was only a few years ago when there arose a demand for the repeal of the Sherman silver law on the ground that silver was too cheap or too plentiful to warrant its continued coinage as money metal, and compulsory silver purchases were accordingly stopped, and properly so; and soon thereafter arose a clamor upon Congress for the creation of a single gold standard because better money was said to be desired, and the single gold standard measure, such as it was, was duly enacted and the financial millenium was freely predicted; and now when a falling market is depreciating values and wrecking fortunes we are told that we must immediately have additional financial legislation, providing for what the next speaker of the House of Representatives has recently described or dubbed as a "rubber currency." The question is presented whether this proposed measure is in the interest of the people or otherwise? We are informed that its details are not yet wholly perfected, but it is announced that its principal future is in substance and effect an authorization of the loaning by the government to national banks of the surplus in the treasury of the United States upon 'approved' securities.

"The financial situation will indeed be desperate when such expedients as loaning the people's money to corporations is suggested, rather than relieving the people from the taxation which has produced the accumulation of the surplus and which accumulation has largely caused the present congestion in the money market."

PROF. LANGLEY'S AIR SHIP.

Statement of the Inventor to Correct Certain Public Misapprehensions Concerning Initial Experiments

By Telegraph to the Morning Star.

WASHINGTON, Aug. 19.—Professor Langley, secretary of the Smithsonian Institution, whose experiments down the Potomac with the aerodrome or flying machine, devised by him, have attracted wide public interest, in order to correct certain public misapprehensions to day issued the following statement:

"The present experiments being made in mechanical flight have been carried on partly with funds provided by the board of ordnance and fortifications and partly from private sources, and from a special endowment of the Smithsonian Institution. The experiments are carried on with the approval of the board of regents of the Smithsonian Institution.

"In my previous trials, success has only been reached after initial failures, which alone have taught the way to it, and I know no reason why prospective trials should be an exception.

"It is possible, rather than probable, that it may be otherwise now, but judging them from the light of past experiences it is to be regretted that the enforced publicity which has been given to these experiments and nothing else, may lead to quite unfounded expectations.

"It is the practice of all scientific men, indeed of all prudent men, not to make public the results of their work till these are certain. This consideration, and not any desire to withhold from the public matters in which the public is interested, has dictated the policy thus far pursued here. The fullest publicity consistent with the national interest (since these recent experiments have for their object the development of a machine for war purposes) will be given to this work when it reaches a stage which warrants publication."

A REMARKABLE ESCAPE.

Prisoner Arrested at Rawlins, on Way to Chicago, Turns Table on Officer Who Had Him in Charge.

By Telegraph to the Morning Star.

CHEYENNE, WYO., Aug. 19.—Albert Ecklund, alias George Johnson, who was captured at Rawlins and was being taken back to Chicago to answer to the charge of grand larceny, effected a remarkable escape from Detective William Marsden. Marsden left Rawlins last night with Ecklund, and to make sure of his man shackled him to a seat in the smoking compartment of a chair car. While Marsden was sleeping beside his prisoner Ecklund went through the detective's pockets, secured the keys to the shackles, released himself and then shackled the officer to the steam pipes. Having relieved the officer of his weapons and other property, Ecklund left the train at Laramie. Marsden was not awakened by the conductor until Cheyenne was reached, when he called for assistance. As Marsden had absolutely nothing on his person to prove that he was not a prisoner, the train men would not release him. The railroad authorities telegraphed to Chicago for instructions, and when the train reached Sydney, Marsden was finally released from his predicament. To-night he passed through Cheyenne en route to Laramie to try to effect the recapture of his prisoner.

NEGRO CONVENTION.

National Business Men's League Convened at Nashville, Tenn.

By Telegraph to the Morning Star.

NASHVILLE, TENN., Aug. 19.—Some 1,500 negroes, representing almost every section of the country, assembled in the House of Representatives at the State capitol this morning, the occasion being the opening of the fourth annual convention of the National Business Men's League. The sessions will continue until to-morrow evening. Booker T. Washington, the Alabama educator and president of the league, was the central figure of the convention and his address to-night attracted a large audience.

The league put itself on record to-night in reference to the recent disturbance at the Boston meeting which was being addressed by Professor Washington. The evening's programme was suspended and by a rising vote Washington T. Booker was re-elected president of the league. The seconding speeches by J. C. Napier, of Tennessee, and S. Laing Williams, of Illinois, were emphatic in expression and aroused enthusiasm.

THE G. A. R. REUNION.

Ten Thousand Survivors of the Civil War Parade in San Francisco.

By Telegraph to the Morning Star.

SAN FRANCISCO, Aug. 19.—Ten thousand survivors of the civil war passed in review to-day, marching to the martial tunes that inspired them to endeavor forty years ago. Above the national colors, borne by every marcher, proudly floated torn and tattered flags. These, with empty sleeves and limping gait, were eloquent reminders of the sorrow and glory of war. Unlike the parade of yesterday, with the quick marching line of youth, this procession was the measured and steady tread of age. As the different divisions marched along waves of sentiment passed over marchers and spectators. There were many still vigorous in line, but they waited for their weaker comrades and the column halted often on its two mile tour.

In the long line were men from every corner of the nation. Of all the States, California excepted, the one that had the largest number in line was Illinois, but Ohio was a close second.

POSTOFFICE DEPARTMENT.

Another Batch of Indictments Against Employes by the Grand Jury Expected. Cases Under Investigation.

By Telegraph to the Morning Star.

WASHINGTON, Aug. 19.—The grand jury to-day resumed its inquiry into the affairs of the Postoffice Department, and it is expected that at the conclusion of the investigation there will be another batch of indictments.

The postoffice inspectors are still engaged in original inquiries, and it is understood will present the facts in the cases of a number of department employes, which, while not criminal in character, are considered sufficiently irregular to call for attention at the hands of the high officials of the department. Among the cases of this character is that of W. O. Hazzard, division superintendent of rural free delivery for the State of New York, who, it is charged, drew a per diem allowance of four dollars per day from the government as if on active field duty, while confined in a hospital under treatment for a gunshot wound. These cases have not been brought officially to the attention of th epostmaster general, and no decision regarding them has been arrived at.

BLOOD STAINED CORPSE.

Body of a Five-Year-Old Boy Found on a Railroad Train.

By Telegraph to the Morning Star.

MONONGAHELA, PA., August 19.—The blood-stained corpse of a five-year old boy was discovered this evening by Baggageman A. B. McDonald, on a Pittsburg, Virginia and Charleston railroad train enroute to Dravosburg. The little boy was packed tightly in a large coffee can, two feet high and eighteen inches wide, and was wrapped in the blood-soaked folds of the dress of an unknown woman. The only mark on the body was a bullet hole in the breast and probably the cause of death. When Dravosburg was reached the couple were arrested and taken to jail in McKeesport. They said their names were Mr. and Mrs. Isaac Jubilier of Tucker and that the boy was their son, who had accidentally shot himself with his father's revolver. When they found he was dead they decided to keep the matter quiet, and bury him quietly at Dravosburg.

WARM WIRELETS

Hon. David P. Padden, one of the most widely known men in Southern public life, is lying at the point of death at his home in Memphis, Tenn.

The warships of the North Atlantic squadron which are to participate in the war game off Portland, Me., next week, arrived off Owl's Head from Oyster Bay yesterday.

An attachment for $40,000 has been placed upon the property of George W. Gale, lumber dealer of Cambridge, Mass., in behalf of the Magnolia Metal Company of Virginia in an action alleging breach of contract.

On the first ballot last night John M. Pickney, of Walter county, Texas, was nominated for Congress by the Democratic convention for the eighth district of Texas. He will succeed T. Ball, resigned.

At Goldonna, near Texarkana, Ark., a street duel occurred between J. N. Weaver and Walter Kennedy, in which both men were shot to death. They were brakemen and disputed over some matter connected with their work.

The State Department yesterday received the following cablegram from Samuel Magill, United States consul at Tampico, Mexico: "Strong hurricane here for twelve hours. Much damage to property."

At a meeting in Washington of the book committee of the Methodist Episcopal Church, South, D. M. Smith, present assistant agent, was elected agent for the publishing house, in place of J. R. Bigham, resigned.

Major Charles H. Smith (Bill Arp) at a late hour last night was unconscious. His physicians say the end may come at any moment or their patient may linger for several days. His weakness is said to be due to the infirmities of age rather than to disease.

At Brewton, Ala., by the explosion of a steam condenser at the Blackshe-Miller Lumber Company's mill, yesterday, a negro was killed, R. L. Williams, white, was so badly injured that he died, and a negro was paralyzed by shock.

The Mason & Hamlin Company, manufacturers of organs and pianos, having their factory at Cambridge, Mass., have assigned for the benefit of their creditors. No financial statement has been made public. The company had a mercantile rating of $300,000 to $500,000.

Edwin H. Welburn was shot and killed yesterday in the composing room of the Southern Methodist Publishing House, Nashville, Tenn. He was the foreman of that department and was killed by C. O. Pettus, a former employe, whose mind is said to be affected.

To expedite the work of recruiting, the Navy Department will authorize postings additional posters in the various parts of the country and advertising extensively in the newspapers. This plan has been followed with excellent results by Lieutenant Everhardt, who is now on recruiting duty.
